

Sustainable Sandhills on TV: News 14 Carolina

The **Sustainable Sandhills Urban Farm Tour** was a success! More than 350 community members attended the event! Thank you to our sponsors, the 20+ urban home-sites in two counties, participating schools, local media, volunteers and our Community Action Team Project Champions:

- Jan Leitschuh in Moore County
- Luci Fernandez and Julia Love in Cumberland County

Sustainable Sandhills works to educate the community about sustainability, resource conservation, and locally grown food.

Watch television coverage of the event by News 14 reporter Gavin MacRoberts, and learn how urban farming can change the world.
