

Landart Solutions Is Certified Green!

Congratulations to local landscape contractor **Landart Solutions** from Fayetteville on their certification in the **Sustainable Sandhills Green Business Program!**

Matt and Michele Horn own and operate Landart Solutions, a design/build landscape contracting company. The business office is in their home, but their projects take them all over Fort Bragg and surrounding communities. The photos below are just a small sampling of some of their work in our community.

Matt and Michele had no trouble satisfying the Green Business Program checklist for their in-office practices like green purchasing, energy & water efficiency, waste reduction and recycling, etc. They were also able to identify some very interesting green measures that are unique to their landscaping business. These include:

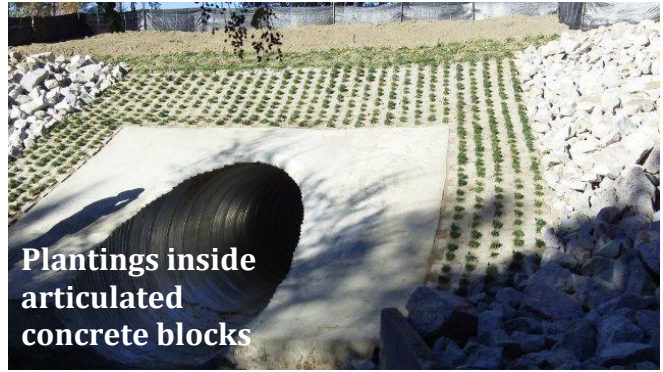

- They use compost as a soil amendment for plantings and other sitework requirements, which reduces the amount of waste disposal.
- They aggressively reuse materials whenever possible, like pallets, "T-posts" for silt fencing, and "ooze tubes" for watering trees.
- They use root gel in their plantings, which greatly reduces the amount of watering required in the weeks immediately following planting.
- Their company is certified in Stormwater BMP Inspection & Maintenance.
- They are working on their "green roof" certification to be a **LiveRoof® installer.**

Congratulations to Matt and Michele Horn and their team at **Landart Solutions** for their investment in our community's future by becoming certified in the SS Green Business Program!

From the Landart Solutions website:
We specialize in commercial and military landscape projects while also performing high quality residential projects. A majority of services are performed in-house, however, we are capable of selecting and managing specialty trades that allow us to provide turn-key landscape contracting.

Landscape management services are also available to commercial clients such as apartment complexes, shopping centers, hotels, churches, etc.
