

HRTF Read-Ahead Material Summary Sheet for Meeting #2

Model county recycling and solid waste programs

Jim Hickman specifically identified Chatham and Lee Counties as high performing county programs that Harnett should consider as models. Orange County is one of the highest performing county programs in the state. Review the links below for materials recycled, fees, quality of education and outreach materials, clarity of information and maps, etc.

Other adjacent county recycling and solid waste programs

These counties may not all have model programs, but because of their proximity to Harnett County, they warrant study to identify opportunities for collaboration.
