

**Mr. Thomas S. Blue, PE PLS**  
**Sustainable Sandhills Water Team Leader**  
**Southern Pines, North Carolina**

---

Mr. Blue has been the lead designer, modeler and/or supervisor of more than 100 projects. His work is focused on water resources and sustainable communities, with particular expertise in the areas of site engineering, stormwater management, landscape design, ecosystem rehabilitation, mathematical simulation, and hydrologic analysis.

Mr. Blue has served as a guest lecturer at NC State University, where he has also taught hydrologic analysis, stormwater management and related subject matter in the College of Engineering. He is a board-certified engineer in North Carolina, South Carolina and Virginia as well as a board-certified land surveyor in North Carolina. He has served as Vice President of the Conservation Council of NC, Volunteer with the NC Division of Soil and Water Conservation, NC Low Impact Development Advisory Committee, NC Parks and Recreation Authority, NCSU Environmental Engineering Advisory Committee, and as the Leader of the Sustainable Sandhills Water Team. He has received the NC Society of Surveyors Shining Star Award and the NC Soil and Water Conservation Society Individual Award.

Mr. Blue is a native of the North Carolina Sandhills who received a BS in Civil Engineering, a BS in Environmental Engineering and a Masters in Civil Engineering from NC State University. He is completing his doctoral studies at the University of South Carolina-Columbia in the field of Civil and Environmental Engineering.
