

Mr. Siraj Chohan, PE
Engineer
Public Water Supply Section
Division of Environmental Health
North Carolina Department of Environment and Natural Resources
Raleigh, North Carolina

Mr. Chohan has served as plan review and compliance engineer with the Public Water Supply Section of NC DENR since 1992.

Mr. Chohan provides technical assistance to water system managers, consulting engineers, regional personnel and water treatment plant operators. He has also worked on numerous major projects, including water treatment facilities, distribution systems, chemical feed systems and regulatory compliance with the surface water treatment rule and the lead and copper rule.

Mr. Chohan is a registered professional engineer. He received his Masters Degree in Civil Engineering from the University of Birmingham in England.
