

Mr. Matt B. Phelps, P.E.
CEO and President
Associate Professional Engineering and Construction
Hutto, Texas

.....

Mr. Phelps, the CEO, President and co-founder of Associate Professional Engineering and Construction (APEC-LLC), has been a driving force in providing decentralized wastewater solutions to his clients, enabling them to be first to market in areas that may otherwise not be developable.

Mr. Phelps has more than 30 years of experience in project management and more than 20 years in engineering design and construction experience in a wide variety of project types. He has more than 30 years of experience with subsurface drip irrigation systems. He also has experience in the snack food industry, processing and automation as well as industrial, commercial and municipal wastewater treatment systems, including extended aeration, anaerobic and aerobic treatments, dissolved air flotation, chemical feed, constructed wetlands, re-circulating sand filters, land treatment and land application, and subsurface drip. His experience with residential and commercial development includes storm water retention ponds, collective On Site Sewage Facilities (OSSF) cluster systems, roads, parks, parking areas, potable water systems, drainage plans, wastewater collection, etc.

As Chief Engineer for the City of Austin/Travis County Environmental Services Department in Texas, Mr. Phelps reviewed more than 200 engineered plans for OSSF and subdivision plats that utilized OSSF for compliance with Travis County and City of Austin regulations.

Mr. Phelps has a Masters Degree in Engineering and is a Registered Professional Engineer licensed in Texas, Arkansas, Minnesota, Mississippi, Kentucky and Florida.
